

## Drava Elegance – A Premium Cycling Experience Through Nature and the Flavours of Slavonia

There are places that are not simply visited – they are experienced.

This unique cycling adventure takes you to the heart of one of Europe’s last preserved river oases – the Drava River.

The day begins with a gentle ride through the elegant landscapes of Podravina: quiet roads, endless fields and villages where time flows more slowly. Each kilometre brings a sense of freedom, far removed from mass tourism.

Along the way, you will encounter a special connection with tradition – an exclusive bread-making workshop using time-honoured methods. Grinding grain on a stone mill, the scent of a wood-fired oven and the warmth of your hosts transform this moment into an authentic, almost forgotten ritual.

Upon reaching the Drava, the experience takes on a new dimension. At the interpretation centre, you will discover the secrets of this unique ecosystem, followed by an intimate canoe journey through the river’s hidden channels.

Between sandy riverbanks and green islets, in a silence broken only by nature, the true beauty of the “Slavonian Amazon” reveals itself.  
*(In warmer months – optional swimming.)*

In perfect harmony with the rhythm of the day, lunch is served at the elegant rural estate of Višnjica, where local flavours are interpreted with refinement and the warmth of Slavonian hospitality.

On the return, another memorable experience awaits – a visit to a family-run beekeeping estate, where, through the host’s story, you will discover the world of bees and taste premium local honey.

The return ride brings a final sense of completeness – a day filled with nature, movement and authentic experiences.

**Price from €290 per person** (minimum 4 participants)

### **Highlights:**

- Scenic cycling through unspoilt Podravina landscapes
- Traditional bread-making workshop
- Canoe experience on the Drava River – the “Slavonian Amazon”
